

TWO SPECIAL WORKSHOPS ON THE LAND IN COLORADO

— in June and August

Finally! I did it. For over 29 lifetimes I had been driven to bury a particular form at the great Pyramid in Palenque Mexico. It occurred on the full moon in March 2007, which was also the first major eclipse in years. The Atlantean grids have now been reactivated and are starting to hum.

The energy flow to our land in Colorado has also been increased and is ready for two major events this year. On June 2nd and 3rd and Aug. 25th and 26th please join Bill Torvund and Gregory for two days of learning, healing and major transformation for you and the planet. On the land in Lyons, CO.

Bill Torvund has been working with clairvoyance since he was three years old and can penetrate the highest dimensional realities with his consciousness. He dances through the akashic records with the masters and grounds it with humbleness and love. He can view past lives and present realities on levels that impress me more than anyone I have ever witnessed before. So much manifests in our synergy together that we are more excited than anyone about what will be discovered and downloaded during these two workshops. The Love and consciousness that will stream through to you will be enlightening and transforming.

I've created many new energetic technologies that are too powerful to release to the public. However under Bill's expert guidance we will be:

1. Conducting numerous healings utilizing these new tools.
2. Revealing information on using the present Metaforms tools alone and in combinations

3. Explaining the 9 dimensional realities out from Source and how to access them.
4. Creating openings from these higher dimensional realities for spiritual growth and healing
5. Making individual attunements and activating higher harmonics
6. Kundalini and many of the ascension codes will also be safely activated
7. Hiking and doing ceremony at the vortexes on the land in Lyons, CO
8. The Aug. event will include the activation of Earth's Solar Vortexes for the first time since Atlantis.

Bill charges \$200 per hour for healings, but this is a full weekend of specialized healing work with both of us for only \$275 including lunch both days. **Please call Janice at 888-978-2737 to register.**

MAGNETIC RAINBOW HELIX WITH 5-D STAR TETRAHEDRON AND CAUSAL RING – 20% OFF ON PRE-ORDERS

Causal Ring hangs on bottom of Helix

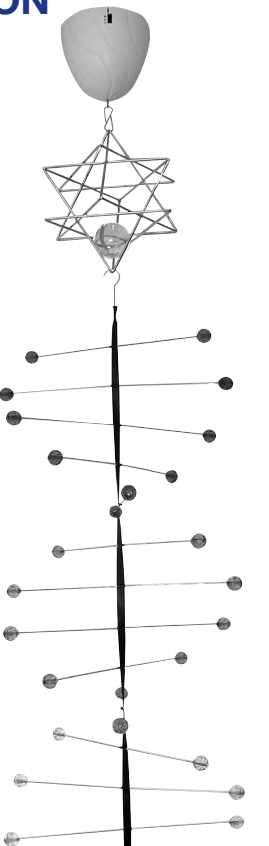

One of the most powerful tools for aligning Source energies and drawing them into your home has just revealed itself. I've been working with the separate components, but didn't realize what I had until Bill Torvund pointed it out to me. In July we have a limited shipment of rainbow helixes arriving with 10 added natural magnets, which increases the physical vortex tremendously as they form the undulating DNA pattern. Starting with the newly developed 5-D Star Tetrahedron holding a crystal ball at the top (we clear and energize the crystal in our Source vortex), moving downward through the visually captivating Rainbow Helix with magnets and ending with the new Casual

Ring at the bottom, we have created a piece that activates “10th dimensional Metatronic Light”. It creates a harmonic of Source energy, which facilitates and eases the ascension process.

6" 5D star Tet - **\$138** + crystal ball - **\$22** + motor & Rainbow Helix w/magnets - **\$129** + Causal Ring - \$98 = **\$387**

TAKE 20% OFF and it is only **\$309** for delivery in July – As always you may use our free payment plan.

HOW TO DISCOVER WHAT'S TRUE IN YOUR LIFE

(The rest of the letter is at: www.metaforms.net)

At a recent show the owner of a company making electromagnetic protection pendants tried to damage Metaform's success. She told people that unknown to us at Metaforms that negative entities were inhabiting our pendants and doing harm to people. Furthermore they were not to tell us this directly or more harm would come to them and to her for risking herself in telling this secret.

First of all for one being to force another into silence, especially via the mechanism of fear is to block free will expression in the darkest of ways and engenders karma that no one should have to endure.

Now let us think about this situation and analyze it in the light of Truth:

Light – Truth – Love are One (Source/God). *darkness – lie – fear* are their opposites and generate separation. These negative aspects are the absence of Source/God and thus have no real substance of their own, like your shadow, which can only be seen by the way when your back is to the light. This means that they don't really exist at all. They are illusion and their power exists only in what we are willing to give to them with our negative emotions and thoughts. They are an expression of our denial or blockage of the Light.

To find a lie look for its corollaries or bedfellows so to speak. Truth always attempts to come out into the open to manifest itself and make itself known – to enlighten. Only a lie or darkness hides from the Light in order to survive. Thus for a lie it is important not to share openly what is being said about another or the statement will be in the open for the Truth to shine upon it and for all to see.

Examine the information shared. Does it create fear? The Truth/Source never uses fear to motivate. Fear blocks the energy from Source and can't exist in its presence. They are mutually exclusive. Also ask if separation is created by these words or actions? If so then it is obvious that the situation is not reflecting Unity/the One or movement in that direction. Love is inclusive of All.

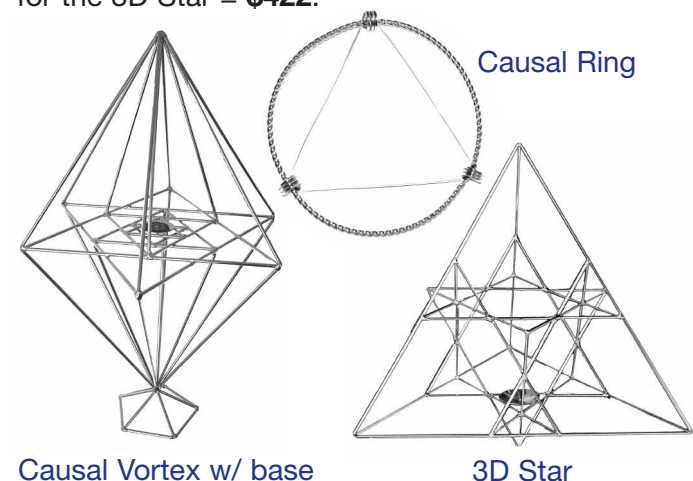

It is also a sad fact that when human beings are given a choice between Love or fear they seem to think that it is more prudent and safer to choose the path of protection or fear. That is why in advertising, fear will drive people to buy for protection

faster than being inner motivated by the positive benefits of a product. The act of seeking protection actually creates the need for protection as the law of attraction states and as a fear reaction to the environment it is a lower level thought form that blocks connection to higher self and is not supportive of ones spiritual growth. True "protection" so to speak is to raise your vibration in the physical dimension so you are more in alignment with higher self/Source. Then fewer and fewer things of a lower vibrational nature will have a negative effect on you or be attracted into your reality. The e. Pendant is helping to create this in your life.

20% OFF two more Metaforms sets – Causal Vortex and 3D Star — & FREE e. Pendant Realignment

Remember – The e. Pendant is a two dimensional antenna system that needs to be realigned with our three dimensional Vortex at least once a year. **Cost = FREE** – please add \$10 for shipping and handling.

OR... If you are ready to take your pendant energy to a higher level and move more powerfully through the ascension process then it is time to work with the **Causal Vortex**. A portal for higher dimensions it is capable of recharging the e. Pedant and acting as a booster antenna to increase its energy and focus. Use in meditation and healing as well. The base increases physical integration, we charge the crystal in the main vortex and the causal ring opens to the highest dimensions and increases the energy flow many times. **20% OFF** the complete system: Gold Causal Vortex **\$368** + base **\$49+** crystal ball **\$22** + Causal Ring **\$98** = **\$537** – **20%** = **\$429** – **\$108 OFF** & take **20% OFF** the same set up for the 3D Star = **\$422**.

NOURISH, HYDRATE AND RESTORE YOUTHFUL RADIANCE TO YOUR SKIN AT THE CELLULAR LEVEL NATURALLY WITHOUT PRESERVATIVES

The skin is the largest organ of the body, taking in nutrients and releasing toxins. When we treat our skin well, we maintain better health and a younger appearance. Unhealthy ingredients, particularly parabens and other preservatives have been shown to enter the bloodstream through the skin, presenting health risks. Even products purchased at health food stores may contain parabens which have been showed to accelerate the aging of skin and are potentially carcinogenic.
